IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

For: MONOCYCLOPENTADIENTL COMPLEX

Honorable Comm'r. of Patents PO Box 1450 Alexandria, VA 22313-1450

INFORMATION DISCLOSURE STATEMENT

Sir:

This subject Information Disclosure Statement is submitted in connection with applicants' continuing duty of disclosure under 37 C.F.R. §1.56.

LISTING OF RELEVANT DOCUMENTS:

The relevant documents are listed in the attached Form PTO-1449.

REMARKS:

The documents (A) and (B) are believed to be relevant to the claimed invention. Document (C) has been found on page 1, line 20 and (D) has been found as well on page 1, line 21 in the specification. Cited documents (E) through (A16) are believed to be relevant to the claimed invention.

EP 0 742 046 is the European counterpart to (F), and (AD) is the counterpart to (H), (K), (O), (T), (U), (A5), (A6) and (A7). WO 96/00243 is equivalent to (J); and WO

97/36937 is the PCT counterpart to (M), document (P) and (A3). Document (Q), (Y), (A4) and (A14) are the counterparts to (AF); and document (A15) are the US counterparts to WO 00/05277. Document (AA) is the foreign counterpart to (A3), (P) and (M); which have been found in the specification on page 33, line 23.

WO 00/24787 is the PCT counterpart to documents (A9) through (A11), and (A16); WO 01/41920 on the other hand is the counterpart to documents (X) and (A13).

Document (S) is equivalent to (AN), which is listed on page 34, line 8 in the specification; and (V) to WO 98/40419, and (AB) is the Canadian counterpart to WO 91/09882. Document (AC) is listed in the specification on page 46, line 32 and is the PCT counterpart to (A1).

Document (AE) is found in the specification on page 55, line 37 and is a counterpart to document (A8), (R) and (G). Documents (AG) and (AH) are found to be relevant to the claimed invention and (AI) is the Canadian counterpart to (AO), which has been found on page 6, lines 26 and page 46, line 19 in the specification. (AJ) is found page 26, line 38, page 30, line 2, page 31, line 26 and page 33, line 37 in the specification. Document (AK) is listed on page 33, line 6; and (AL) is listed on page 31, line 5 in the specification. (AM), the PCT counterpart to (A13) and (X) is cited on page 34, line 25, and page 46, line 28 in the specification.

AU 3,039,300 is the Australian counterpart to (AP) and document (L), US counterpart to (AQ) which has been found on page 2, line 9; and document (AS) listed on page 2, line 5; page 15, line 11 and page 46, line 14 in the specification. (AR) found on page 2, line 11 is the PCT counterpart to (I); (AU) and (AX) have been found relevant to the claimed invention. Documents (AV) and (AW) are cited on page 26, line 8-10 and page 53, line 8 in the specification.

Documents (BA) is listed in the specification on page 1, line 36; and documents (BB) through (BC) are found to be relevant to the claimed invention. (BD) is listed on page 2, lines 18-20 and page 46, lines 10-11; and document (BE) is cited on page 2, line 20, page 10, lines 23-25 and page 46, line 10.

Page 2, lines 23-24 of the specification lists (BF) and page 1, lines 16-17 lists document (BG). (BH) is cited on page 8, lines 26-28, (BI) on page 16, lines 11-12, and (BJ) on page 6, lines 27-28 in the specification. Documents (BK) through (BS) are found to be relevant to the claimed invention.

A copy of the International Search Report is attached. Entry is respectfully solicited.

FEE UNDER 37 C.F.R. §1.17(P):

Since this Information Disclosure Statement is submitted before the mailing of a first Office action on this merits, a fee under 37 C.F.R. §1.17(p) is not required (37 C.F.R. §1.97(b)).

Please charge any shortage in fees due in connection with the filing of this paper, including Extension of Time fees, to Deposit Account No. 14.1437. Please credit any excess fees to such deposit account.

Respectfully submitted,

NOVAK DRUCE DeLUCA & QUIGG, LLP

Jason D. Voight
